**ENERGY EFFICIENT UP TO 121 LM/W  
STANDARD DALI 2 DIMMABLE**

## UP LIGHT OPTION

The blank plate of the Lucio comes standard with the luminaire. It can be easily exchanged with the uplight with just one click as desired. The uplight provides indirect light at the top of the luminaire and is also available in black for all sizes. In the uplight variant, the light output of the Lucio is distributed, with 70% accounting for direct light at the bottom and 30% for the uplight. The light color of the uplight matches that of the direct light

## CONNECT MULTIPLE LUCIOS

Connect multiple Lucio fixtures with our special connection pieces and create a seamless design. With the option to add a 15 meter roll of opal finish, you make your design an aesthetic whole.

**COLOURS**

## DIPSWITCH

Special dip switch on the top of the fixture with the option to switch between light colors 3000K, 3500K and 4000K. Light output can be controlled on the driver.
