Optimal Experience

Comfort is what drives nuudo.

Our series are designed with an eye for detail and equipped with a high CRI to achieve the most optimal light image and create a unique lighting experience. We know that comfort directly affects our sense of relaxation and our ability to communicate and interact with others.

With low glare, warm light colours and high colour fidelity, you easily create the right ambience to arouse feelings and leave an unforgettable impression.

Fast Integration

Comfort, which goes beyond creating the perfect light image and optimal experience. That is why we have also thought about things like integration, demo boxes and ease of installation.

To make the sales and installation process even easier, we have ensured that all our nuudo. luminaires come with 3D and LDT files. This allows you to quickly integrate them into Dialux and other lighting design programmes.

Fixture series.

At nuudo. we cherish special moments and do all we can to make them even more beautiful. Everyone has their own experiences in creating emotions and atmosphere. To accommodate all these unique perspectives, we have developed eight different series that you can personalise in detail.

Each of these models has a beautiful aesthetic that contributes to a great atmosphere. In addition, they offer high comfort and the ability to create smart lighting by using Casambi. This makes the nuudo. series suitable for endless applications within the residential, renovation or hospitality sectors.

Experience the effects of Comfortable and inspiring lighting

We understand that it can be difficult to decide which luminaire best suits your project space. That is why we offer the opportunity to request a demo box, so you can experience for yourself how our luminaires can change the atmosphere in a room and how lighting can reflect a company's emotions and values.

Would you like to request a demo box and discover how to create an experience with lighting? Then feel free to contact us by scanning the QR code.
